# Introduction

## Conventional detection methods

- Mainly adopted **hand-crafted features** to train **supervised classifiers**.
  - User characteristics, text contents, propagation patterns
  - Decision Tree, Random Forest, SVM
- Some studies apply more **effective features**
  - User comments (Giudice 2010)
  - Temporal-structural features (Wu, Yang, and Zhu 2015)
  - The emotional attitude of posts (Liu et al. 2015)
